About us

Semiconic Devices, founded in January 2011 and registered in October 2011, is an organization with a core expertise in the distribution of electronic components.

As the leading distributor of electronic components in India, Semiconic Devices is synonymous with innovation and has become one of the most reputed names in the market. With well-established roots in almost every region of India, we have catered to more than 1200 customers across various segments over the last decade.
